A Heap of Good.
In this funny old world of make-believe,
With all its bluff and sham,
Where the men who are honest
And the men who are strong,
And the men who are weak,
Are mixed in a curious way—
In this funny old world of make-believe,
There's a heap of good in the plan,
I often think when I'm prone to complain.
Because I don't understand,
When the thing he has said
Or has done, makes me
Was just to my liking.
And didn't suit me,
How could I, narrow and selfish I am,
And how much more he helps to make
The heap of good in the plan.
How great it would be, it seems to me,
If each one built a neighbor strong,
And could bury the insults
And unkind words,
And forgive and forget
Or destroy them like weeds,
And each help his struggling brother along.
Then you and I and the things
We could do,
Would be the heap of good in God's plan.
—Bertha L. Dalton-Johnson.

TODAY'S EVENTS.
Annual tag day for day nursery.
Floral quartet will appear in concert, convention hall.
Mr. and Mrs. Harry G. Guinness will entertain with buffet supper complimentary to Mrs. J. M. Vanaley.

Mrs. A. Y. Rowell and daughter, Ann, left last night for Hot Springs, Ark., where they will join Mr. Rowell, who is spending the month there. They will be accompanied by Mrs. Martha Rowell.

Mr. and Mrs. James B. Cole are visiting at different points in Texas for the coming fortnight.

Mrs. Grant C. Stephens will return Saturday evening from a short visit to Kansas City.

Lincoln, Neb., Virtuous; No Divorce in Five Years
LINCOLN, Neb., March 24.—Reno, Nev., attention, please! Here is a county — Banner county, Nebraska—that hasn't had a single divorce case in five years. "I've written you four times telling you that we have no divorces to report," said a letter received today by the chief of the bureau of vital statistics from R. D. Wilson, the county recorder. Mr. Wilson's explanation of the situation was simple enough. "We love our wives," he said.

CHURCH BEGINS HEALING PLAN

Denver Churches to Feature
Lent by Old-Time
Curing of Sick

Denver March 24.—“Old-fashioned religious healing of the sick” will feature Lenten services to be conducted by Episcopal churches of this city, according to announcement by Rev. R. B. H. Bell, pastor of St. Thomas Episcopal church of Denver.

For the first time in the history of the Episcopal church in America, it was believed, healing services, in which virtually all Episcopal churches in the city will take part, will be held, it was announced, in

some downtown church during the next month. Quietly and unostentatiously, what was termed “practical religious healing” has been conducted for some time by Dr. Bell and by the Rev. Charles Brady of St. Barnabas church. These two clergymen, with the Rt. Rev. Fred Ingley, Episcopal bishop-coadjutor of the Colorado diocese, have worked out the plan for the downtown mission, where solemn healing meetings will be held for all seeking relief. “The neglect of healing by the churches of today has been a great mistake,” said Dr. Bell. “I believe in the power of Jesus Christ to heal the sick and make cripples whole through the church today, just as much as he did it while on earth and as his disciples carried on the work after his ascension. “By this we do not mean that healing should be made into a great public hurrah, and we have done what has been done in a quiet manner. Prayers for the sick must be in all sincerity, without any idea of ward public notoriety. Those who want to be healed must give themselves up to Christ beforehand.” Dr. Bell declared that for the past year healing of the sick by clergymen has been ordered by the church of England throughout the British empire, and it is now the duty of every clergyman in that church to carry on the work of healing, just as of the church's regular work.
